Portfolio

- RentV (Rental Vehicle) - HTML, CSS, JAVASCRIPT

Responsibility :

- RentV (Rental Vehicle) is likely a business or service related to renting vehicles, such as cars, bikes, or other forms of transportation.
- E-Commerce Website (ZENZI) - HTML, CSS, JAVASCRIPT

Responsibility :

- ZENZI – As part of my academic project, I developed ZENZI, an e-commerce clothing website using HTML, CSS, JavaScript, and Bootstrap, featuring a responsive layout, product catalog, interactive shopping cart, and checkout functionality. This project helped me strengthen my skills in web development, front-end technologies, and e-commerce functionality.
